The American States Assemblies have got your names, your numbers and your Email addresses. We know who you are and we know how you've operated. Your days are numbered. James Timothy Turner, Chris Hansen, Anna Maria Reitzinger, James Clinton Belcher and many others over the decades (*links below*) have paved the way quite some time ago for all Americans. **Now we need to continue with their education and outreach by making these efforts become ours as well.**

This website you are now browsing is NOT the official "Minnesota Assembly" website... For that you need to click [HERE](#). Our official website is <https://minnesotaassembly.net> or also <https://theminnesotaassembly.net> Please visit today. Thank you!

Also today, as for this TMA v1.0 portal, this is a non-production concept development web portal to replace and revise our current existing website. Please browse here in peace and do no harm.

As we work together on this portal, please keep in mind that all of the committees will be asked to share in providing input, feedback, content, educational resources, accountability, transparency, due diligence and follow-up.

Language translations in the planning phase:

- English (*American, USA*)
- Russian
- German
- Spanish
- Hmong
- Chinese
- Afroasiatic (*language families that include Oromo and Cushitic*)

- English (*European, GB / UK*)

Peace has been declared on America by actual awakened Americans...

- We've returned our 'administrative selves' home to the 'land and soil jurisdictions' upon the North American continent as the living people, upon the political and geographic boundary of Minnesota state.
- Minnesotans are or have been returning home to Minnesota.
- Wisconsinites are or have been returning home to Wisconsin.
- The peoples of the remaining 48 states to their own as well.
- We have put a stop to the globalists, the criminal elites, the greedy corporatists and others who are bent on destroying world peace and enslaving Americans to ruin our peace for their own selfish pursuits. Legions of crusty old men are dying off and fading away, We have them outnumbered.

We are each doing this for ourselves based on layers of egregious fraud we have discovered that have been at work to destroy America for nearly 200 years.

Rather than get violent and throw fits of rage, we are carefully and peacefully reconstructing our states based on what we have **the rights to do** as established in our American **Declaration of Independence** which was put into effect on July 4, 1776.

Today we all are assured that we have to be intentional and vigilant as we seek and protect our independence -- all over again -- to make this nation what it once was -- a free people.

When can we start preparing for the finer things in life? We can begin right away! On the double!

We can't take this good news with a sigh of relief that makes us want to go back to sleep, right?

No way! We have a State Assembly to staff and run. We also have county governments to reconstruct.

We need to get our **4 Pillars** up, as you will learn at this portal site. The Four State Pillars are:

- General Assembly
 - Jural Assembly
 - Militia Assembly
 - International Business Assembly

Then with our pillars up and running, we can expand and grow and bring in plenty of people to educate and train.

Let's all join in and use a modern data center approach to re-do what was done in the country over 200 years ago.

Let's get into the groove of restoring peace and equality by the strokes of our pens and by correcting our statuses.

Let's resonate at higher frequencies and become the change we wish to see in the community and the state around us.

Let's invest ourselves in the mission beneath The Minnesota Assembly and The American States Assemblies.

Let's get our hard-copy printing done for each of our household administrative records.

Having done all of this, you will then have your political status corrected and your freedoms renewed.

Be sure to dig in and study. Do your best to soak up all of the educational resources at this portal.

Rest assured that your secular corporate governments (*those municipalities, etc.*) are not in the business of providing anything quite like this. **I will guarantee you that!**

2. The International **Peace** Proclamation By Anna **Von Reitz** It was a sunny day in summer, and unusually quiet. The constant hum of traffic on the nearby road was still. James Clinton Belcher sat down at the old maple table and his hands rested for a moment on its gleaming surface. The late sun slanted... [<read more>](#)

Lastly: It is also suggested that once you have your Peace Flag, that you install that on the top of your flag pole. Some people are placing their *(new)* [Minnesota Flag](#) on the top. The point is, we are NOT at war inside America. That means we can put a stop to running our old war-time flags *(Old Glory)* at the top of our flag poles. Also, bear in mind: As you think of the new Minnesota state flag, you must know, that this is the Corporatized Municipal and Territorial STATE OF MINNESOTA and its Employees who created the newest flag for their STATE OF MINNESOTA enterprises in the sea and air jurisdictions.

James 5:12

Above all, my brothers and sisters, do not swear—not by heaven or by earth or by anything else. All you need to say is a simple “Yes” or “No.” Otherwise you will be condemned.
