

Click Your Avatar Icon to Navigate to your Wall

Once at your wall, review and select your desired configuration choices. You then have the floor on any topic.

This is a sample workflow posting to get people acquainted with **Virtual Meeting Rooms** as a format of this networking portal.

As you log in to the portal (*the Login link is on the very bottom of this page in the footer section*) you will be able to Login. Also seen once you get to Virtuasl Session will be the link to run the console back-end at your membership level, where you can edit your content and all of the other existing contents relevant to the post you hold as assembly member.

Members will also be able to raise a matter for discussion or create a topic and make other changes to the portal to help and effect lasting changes for the day to day activities in our active reconstruction here at Minnesota.

Think of your changes as the building blocks to participate in putting everything together for limited self-government.

We follow the existing minutes to construct a web workflow that helps guide the people to become as efficient as possible in the given time constraints.

We can now add, configure, peer review and present information on this platform through the use of its

Welcome to Virtual Meeting Rooms

many features such as:

- adding content in every area
- developing content to manage
- establishing new government
- joining in various news feeds
- developing roles and responsibilities

Let's all join in to watch how our message expands;
learn how we all can customize it in various ways.

- have roles and assigned functions for the land and soil jurisdiction
- established practices outlined by The American States Assemblies education
- TMA website a Minnesotan's own off-shoot of Anna's great resource website at
'The American States Assemblies'

Go ahead, you can't break it....

-
- Let's start to assemble relevant content in every category, every committee, all functional roles, etc..
 - The committees can build an A.I. sort of workflow model to help get our work accomplished
-
