
The Minnesota Assembly is **reconstructed state government**, and is run by the people, for the people, as the will of the people, which results in a sovereign State self-governance that is republican in form. There may be some challenging topics discussed. For that, we ask that you preview certain materials available from our State Coordinator.

Our state, under the heading of '**the last man standing**' has now been called to order, by the Federation, and has been "in session" at least twice monthly since May 2022, and the assembly hosts weekly committee meetings over the internet, telephone, video chat and various electronic means.

When you are logged in, with system configuration credentials, you will be able to edit the pages showing the "Edit" button by selecting the Edit button icon. Use caution to save your edits, keep originals, and take notes. Set your Publishing details and input your name as the Author Alias so that you are credited with your works. All will help serve as a guide to successful assembly work. Go through any training or tours that are shown on screen for your education.

When you are logged in to the **Assembly Portal**, with your 'standard membership' account, you will see significantly more content than a casual browsing guest would see.
