

The Minnesota Assembly - based in open source

The Minnesota Assembly Tech Committee aspirant, Jim Homyak, proudly presents Joomla! Version 5.1.1 as our proposed replacement to its former proprietary-source-code website publishing environment.

Learn more about workflows in The Minnesota Assembly.

As steps are drafted in committee minutes, where we can then architect the various workflows to provide wide-ranging services at all levels at and for our State and Counties.

**The div tag structure coded here is
technically, a miracle.**

The Minnesota Assembly - based in open source
